

Edition: 07/12

Reference: Separating and Preservative Agent

BIOtrenn Super

Special separating agent for non-absorbing moulds
Product No.: 223450

Product Information:

Properties:

- separating agent for non-absorbing, large-size moulds (+60 °C)
- does not form pores
- for sharp edges and profiles

Application:

for heated moulds up to 60 °C
for solvent resistant plastic moulds

The non-diluted BIOtrenn-Super is applied as thin and even as possible to the mould with a brush, sponge or spray system. The moulds should be dry and clean in order to obtain the full effect of the thin layer.

Quantities to use:

15 - 30 g/m² for steel moulds
20 - 40 g/m² for plastic moulds

Specifications:

Appearance:	liquid
Colour:	yellow
Density:	0.81 ± 0.02 g/ml

Storage:

Protect against frost and dirt. Under normal storage conditions (closed container, 20 °C) minimum shelf-life 12 months.

Packaging:

container approx. 1000 l, drum approx. 210 l, can approx. 20 l
exact quantity delivered on request

Safety Rules:

See EC safety data sheet.
