

ECO Guard

Preservative agent on mineral oil basis
Product No.: 226060

Product Information:

Properties:

- machines and tools remain as good as new for a longer time, if preserved regularly
- suitable as corrosion protection for construction and asphalt machines

Application:

concrete mixers
construction machines
block machines
concrete trucks
tools

New tools and machines should be sprayed with ECO Guard before use. Used or dirty construction machinery should be cleaned with full jet of water. Remove large residues of concrete and mortar, if necessary a pre-treatment with REBAnit S is recommended. Clean thoroughly with water. Apply a saturated film of ECO Guard (undiluted) to the clean surface with an appropriate painting or spraying system.

Quantities to use:

depending on the type and absorbency of the mould
30 - 50 ml/m² for first application
20 - 50 ml/m² for all further applications

Specifications:

Appearance: liquid
Colour: honey-yellow
Density: 0.86 ± 0.02 g/ml

Storage:

Protect against frost and dirt. Under normal storage conditions (closed container, 20 °C) minimum shelf-life 12 months.

Packaging:

container approx. 1000 l, drum approx. 210 l, can approx. 20 l
exact quantity delivered on request

Safety Rules:

See EC safety data sheet.
